

ENVIRONMENTAL STEWARDSHIP TOUR

Since the Niagara Parks was founded in 1885, our mandate has been to protect and preserve the Niagara River Corridor. This tour is an in-depth look at the challenges and successes of caring for the environmental health of the Niagara River Corridor.

With ever-present threats to environmental wellness and an influx of invasive species, this mandate has been more important than ever. Join us for a tour through the Parks as our environmental experts discuss the challenges, impactful successes, and pride that comes from caring for 56km of parkland along the Niagara River. Led by Niagara Parks' experts, you will:

- Walk through four of our largest environmental restoration and rehabilitation projects through unique wildlife habitats.
- Learn how shoreline, wetland, and grassland restoration initiatives have helped facilitate the return of Meadowlark and Bobolink birds to the Niagara Region.
- Learn about the rare and at-risk plants and animals along the Niagara River corridor.
- Understand what it takes to turn a golf course into an environmentally ethical attraction for both golfers and species at risk.
- Discover inventive and groundbreaking alternative measures to combat invasive species and protect the biodiversity of Niagara.

INCLUDED BENEFITS:

- Private transportation with hotel pick-up and drop-off
- A Niagara Parks guide escorting your group at each stop
- Guided visits to Dufferin Islands, Chippawa Battlefield, Ussher's Creek Coastal Wetland Restoration Project site, Gonder's Flats and Legends Golf Course

Please note: there is a lot of walking on this tour and we would recommend wearing comfortable shoes and dressing for the weather. You may also wish to bring water.
Minimum 20 per booking. Price in Canadian dollars. Taxes extra. Reservations required. Valid until December 31, 2025.
