

# Queen Victoria Place

## RESTAURANT

---

The stately building now known as Queen Victoria Place was constructed in 1904. Situated north of Table Rock and well back from the edge of the cliff, the structure features a distinctive green copper roof and walls of boulder stones that came from the riverbed just south of the Horseshoe Falls, in an area that had been dried off to allow for the construction of the Toronto Power House.

Over the decades, the structure of Queen Victoria Place was remodeled several times, but much of the original material still exists. The wall of boulder stones that existed as the exterior of the building in 1904 is now a unique feature in the dining room.

In 1948, the upper level was expanded and modernized to provide more suitable accommodations for the Commissioners of Niagara Parks, including an attractive lounge and a new board room. Known as the Commissioner's Quarters, this floor was "opened up" in 1993 to make it more convenient for larger groups to hold functions there.

Today, entering the 115th year in the heart of Queen Victoria Park. Queen Victoria Place Restaurant offers the very best of Niagara through a locally sourced menu, Niagara VQA wine list and a diverse craft beer menu.
