EXPERIENCE, EXPLORE & ENJOY NIAGARA PARKS

Niagara Parks was established in 1885 to preserve and protect the land surrounding Niagara Falls and the Niagara River. Travel along the 56-kilometre Niagara Parkway and experience our sprawling parkland, natural attractions, restaurants featuring local fare, celebrated golf courses and restored heritage sites.

Since its inception, Niagara Parks has operated in a self-sustaining manner, as it receives no operational funding from the provincial government. Every dollar you spend at Niagara Parks helps preserve the nature and heritage of the Niagara River corridor.

Our Tree Planting Program

Each year, we aim to plant 5000 trees across our 56-kilometre ribbon of parkland. It's part of our ongoing mandate to preserve and protect the natural landscape for millions of guests from around the world.

UNBEATABLE FALLS VIEWS

Situated on the upper level of Table Rock Centre, only steps from the brink of the Horseshoe Falls, Table Rock House Restaurant offers locally sourced and internationally inspired menus. Whether you're looking for a romantic dinner with the illuminated falls as your backdrop or casual drinks in our lounge, let the cuisine and the stunning views make your dining experience come alive.

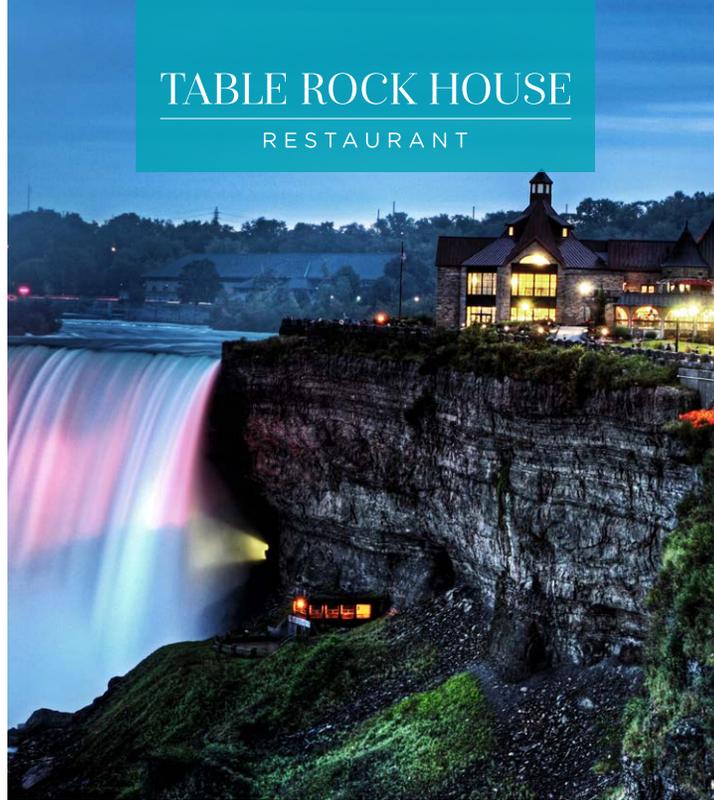

A one-of-a-kind culinary experience awaits at the brink of the falls

Enjoy some of the most spectacular views of both the Horseshoe and American Falls while dining from the covered terrace or indoor dining room at Queen Victoria Place. Enjoy breathtaking Falls illumination and fireworks displays at night.

Feast On, a program by the Culinary Tourism Alliance, certifies restaurants that are champions of Ontario food and drink. By dining with Niagara Parks Culinary, you help support the many growers, producers and craftspeople that make up the province's strong food, beverage and agricultural sectors.

The "Certified Taste of Ontario" badge shows locals and travellers alike that we are committed to showcasing Ontario's unique tastes of place.

NIAGARA PARKS POWER STATION

This was the first major power station on the Canadian side of the Niagara River. For more than 100 years, it used the power of Niagara Falls to supply electricity to businesses, homes and communities. Today, it invites visitors from all over the world to learn about hydroelectricity through immersive exhibits, restored artifacts and interactive storytelling.
